

Technical Data

Compac 100% Acrylic Aerosol Spray

Description

Compac Acrylic Aerosol Spray is 100% acrylic resin based that provides faster drying, high gloss, colour retention and excellent adhesion on both metal and wood surfaces. It can be simply used on house furnitures such as table, chair, playpen, toys, home appliance, bicycle and motorcycle, etc.

Specification

Type	100% Acrylic Resin
Colour	see Compac 100% Acrylic Aerosol Spray Colour Card
Texture	High Gloss
Drying Time	Touch dry 3 - 5 minutes Hard dry 10 - 15 minutes Recoat 10 - 15 minutes

Direction For Use

1. Surfaces to be applied must be clean, dry and free from any waxy or loosely material.
2. Shake can thoroughly prior use.
3. Hold the can 12 inches from the object and press down the adjuster. Move can firmly and slowly on lateral direction while spraying.
4. Apply two coatings at an interval of 10 - 15 minutes.
5. After spraying, turn can up side down and press adjuster to clean the spray nozzle.

Caution

Do not spray near fire or open flame. Spray in a well ventilated area. Do not store above 40°C. Do not rupture or incinerate can.
